Integrated Dual Degree(B.Tech + M.Tech)
Computer Science and Engineering and Artificial Intelligence
Rajiv Gandhi Institute of Petroleum Technology

Education

Rajiv Gandhi Institute Of Petroleum Technology *Jais, Amethi*
Integrated Dual Degree (B.Tech + M.Tech) in Computer Science & Engineering and Artificial Intelligence 2023-28

Technical Skills

Programming Languages: C/C++, Python, JavaScript, Dart

Machine Learning / AI: PyTorch, OpenCV, MediaPipe, NLP, OpenAI API, Groq API (LLaMA 3.1)

Frameworks & Libraries: ReactJS, NextJS, ExpressJS, Flutter, Socket.io

Web Development: HTML, CSS, REST APIs, JWT Authentication

Databases & Backend: MongoDB, MySQL, Firebase

APIs & Integrations: Twilio, Razorpay, Google Maps API

Developer Tools: Git, Docker, Postman, jsPDF, html2canvas

Tools & Platforms: Windows, Power BI, AutoCAD, Maya

Projects

AidKriya Walker | Aidothon 4.0 Runner-up |

Peer-to-peer walking companion marketplace connecting users seeking walking partners with verified companions.

- **Tech Stack**: Flutter, Node.js, Express.js, MongoDB, Firebase, Socket.io
- Developed a cross-platform mobile platform with real-time GPS tracking, SOS alert system, and walker verification workflow.
- Implemented secure authentication using JWT and OTP verification with Twilio along with Razorpay-based payment integration.
- Built scalable backend APIs with MongoDB and designed real-time session updates using Socket.io and Google Maps integration.

MuteChat |

An accessibility-focused, secure real-time communication platform designed for the deaf and mute community.

- **Tech Stack**: Flutter, Node.js, Express.js, MongoDB, Socket.io, Firebase Cloud Messaging (FCM), Agora RTC, Redis
- Developed real-time one-to-one and group messaging with Socket.io, supporting message synchronization, delivery states, and community-based communication.
- Implemented secure authentication, encrypted messaging workflows, and role-based access control using JWT and MongoDB.
- Integrated Agora RTC for real-time voice and video calling, along with Firebase Cloud Messaging (FCM) and push notifications for reliable communication.
- Built and deployed scalable backend services on AWS EC2 using Node.js, PM2, and Nginx, with MongoDB for persistent data management.

AI Content Assistant |

Full-stack web application for generating SEO-optimized articles in English and Hindi using AI.

- **Tech Stack**: React.js, Node.js, Express.js, Groq API (LLaMA 3.1), OpenAI, jsPDF
- Built an AI-powered content generator that produces structured, SEO-compliant articles with meta titles, descriptions, and keyword optimization.
- Implemented multilingual support for English and professional Hindi along with topic detection for specialized "How-to" content structures.
- Enabled PDF export of generated content using jsPDF and html2canvas with a React-based UI for seamless content creation.

Achievements

Qualified JEE Advanced – Among top candidates in India's national engineering entrance exam *2022, 2023*

AidKriya – Runner-up, Aidothon 4.0 Hackathon – Built an innovative digital solution during the national-level hackathon *2025*

Certifications

– **Full Stack Web Development** *April 2025*
React, Node.js, Express.js, MongoDB GeeksforGeeks

– **Introduction to Generative AI** *May 2024*
Fundamentals of Generative AI and GenAI applications Google

– **Prompt Design in Vertex AI** *June 2024*
Prompt engineering and GenAI development using Vertex AI Google

– **MongoDB Developer's Toolkit: CRUD Mastery** *May 2025*
MongoDB CRUD operations with Node.js, Python, Java, C# GeeksforGeeks

– **Breaking into Product Management** *April 2025*
Product strategy, roadmap planning, and product lifecycle GeeksforGeeks

Relevant Coursework

– Data Structures and Algorithms, Design and Analysis of Algorithms, DBMS, Computer Networks, Computer Organization and Architecture, Compiler Design, Artificial Intelligence, Natural Language Processing, Data Mining, Data Analytics, Software Engineering, Embedded Systems, Web Development, Graphics and Visual Computing
